

Arturo Omar Martinez

25 Park Place NE # 605, Atlanta, GA 30303, USA

✉ aomartinez@astro.gsu.edu • Astronomer

Education

Georgia State University

Graduate student/researcher

Atlanta, GA, USA

Fall 2016 – Present

- Aiming for M.S. in Physics (with concentration in Astronomy) to be awarded in May 2018 (expected).
- Aiming for PhD in Astronomy to be awarded in 2021 (expected).

San Diego State University

Full-time graduate student/researcher

San Diego, CA, USA

Fall 2015 – Summer 2016

San Diego State University

B.S. - Astronomy Major/Math Minor

San Diego, CA, USA

Fall 2011 - Spring 2015

Research Interests

My current research interests lies in stellar astronomy in topics such as stellar evolution, calculating stellar parameters, and image reconstruction through optical interferometry. My current work involves studying the origin of rapid rotators and finding the precise ages of stars. Other current research interests include image restoration and combining astronomy with modern technology (using virtual reality).

Honors, Awards, Prizes

- **Second Century Initiative University Doctoral Fellow:** August 2016 – Present
- **Cal-Bridge Scholar:** October 2014 – July 2016
- **Gordon and Doris Cox Scholarship:** May 2011
- **California Scholarship Federation Member:** May 2011

Research

Georgia State University

Advisor: Prof. Fabien Baron

Atlanta, GA, USA

October 2016 – Present

- My research with Prof. Baron consists of studying rapid rotators. I will be using CHARA to do image reconstruction on these rapid rotators to study their origins, show any detections (or lack thereof) of sunspots, and compare observational data with theoretical codes.

San Diego State University

Advisor: Prof. Eric Sandquist

San Diego, CA, USA

January 2014 – August 2016

- My research with Prof. Sandquist involved eclipsing binary stars in order to derive a precise age in the star cluster M 37. I specifically looked at two eclipsing binaries in order to constrain their periods by producing light curves.

University of Arizona

Advisor: Prof. Ian Crossfield

Tucson, AZ, USA

June 2015 – August 2015

- As part of the California-Arizona Minority Partnership for Astronomy Research and Education (CAM-

PARE), I worked under the guidance of Prof. Crossfield to find stellar and planetary parameters for various K2 objects of interest. Although the CAMPARE program only lasted 10 weeks (from June 2015 - August 2015), I continued working with Prof. Crossfield and published a paper in ApJ.

Technical and Personal skills

o Programming Languages:

- Fortran 90
- Python
- L^AT_EX
- Julia

o Observing:

- I can operate the 1-m telescope at Mount Laguna Observatory (owned by SDSU) in order to take photometric observations.
- As part of the research through the CAMPARE program, I have also attained observing experience with the New Technology Telescope (NTT) using the SOFI and EFOSC2 spectrographs.
- I have some experience getting interferometric data with the MIRC-X and CLIMB beam combiners at the CHARA Array.

o Linguistics:

- English (Speaking and writing level: native proficiency)
- Spanish (Speaking level: professional proficiency; Writing level: elementary proficiency)
- American Sign Language (elementary proficiency)

Research Talks

- o Presented summer research at CAMPARE Symposium on September 12th, 2015.
- o Presented summer research at Lunar and Planetary Laboratory Conference on August 20th, 2015.
- o Gave an end of summer internship CAMPARE talk at Steward Observatory on August 19th, 2015.

Poster Presentations

- o At AAS in Kissimmee, FL – January 2016
- o At K2SciCon in Santa Barbara, CA – November 2015

Teaching Experience

Georgia State University

Teaching Assistant - Lab Instructor

Atlanta, GA, USA

August 2016 – Present

- o As a TA at GSU, I have taught several labs. Topics for these labs include, but are not limited to the following: Phases of the Moon, Stellar Classification, and Galaxy Classification.

San Diego Learning Center

Educator

Chula Vista, CA, USA

October 2013 – March 2015

- o At the SDLC, my main job was to help students, anywhere from first grade to college freshman in Algebra 1, Geometry, Trigonometry, Calculus, Astronomy, and Physics.

Outreach/Community Service

Rabun Gap Nacoochee School

Volunteer Activities for Total Solar Eclipse

Rabun Gap, GA, USA

August 21, 2017

- o Assisted Rabun Gap County with total solar eclipse (e.g., maintaining telescope).

Hard Labor Creek Observatory
Georgia Buddhist Summer Camp

Rutledge, GA, USA
June 9, 2017

- o Gave a talk to the Georgia Buddhist Summer Camp group, which included many newcomers to astronomy (half of which were children). Also showed guests the observatory, telescopes, and celestial objects.

Hard Labor Creek Observatory
Open House

Rutledge, GA, USA
Summer 2017

- o Gave a public showing of different telescopes and celestial objects through the telescopes on June 3rd, 2017.

Chula Vista High School
Tutoring

Chula Vista, CA, USA
Fall 2010 – Spring 2011

- o Peer-tutoring in subjects ranging Algebra up to Calculus
